

Addendum for HS Display RFP

Tiered Lecture Hall

- Quote projector options for front of the room and for current placement; flat screen panel options can be quoted but will likely be too costly based on the distance to the first row of seats
- Existing projector needs to be taken down, but mount may stay in place depending on ease of removal or ability to reuse
- Please also quote for a new A/V control for the podium; existing lighting control for the room will remain as is
- Current display size estimate 6.5'H x 12'W
- Current projector model is Epson Powerlite Pro G6450WU

Auditorium

- Current front projector model is Panasonic D6000XGA or PT-D6000
- Rear projector model is Panasonic DZ 780 WUXGA or PT-DZ780
- Quote an option for a new A/V control panel for the front projector with placement at the soundboard inside the auditorium
- Quote optional replacement screen; estimate 12'1" x 12'4"
